

Result of the EuroNanoMed First Call for projects
Call Steering Committee's decision
Final selection of projects proposed for funding

Projects selected for funding

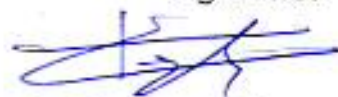

Final Ranking	ACRONYM	Full Title
1	DENANORNA	Dendrimers as nanovectors for targeted siRNA delivery in gene therapy
2	Nano4Neuro	Nano-Functionalised Implants for the Regenerative Treatment of Spinal Cord and Nerve Lesions
3	LYMPHOTARG	LYMPHONANOCARRIERS FOR THE TREATMENT OF METASTATIC CANCER
4	I-CARE	Integrative nano-Composites And Regeneration of the Eye
5	EAREG	Ear Tissue Regeneration Using Human Cells and Novel Nano-Cellulose Scaffolds
6	TARGET-PDT	Photo Dynamic Therapy using photosensitizer-doped targeted organic nanoparticles
7	DENPEPTHIV	Peptides-associated dendrimers in dendritic cells for the development of new nano-HIV vaccines

Project selected for funding upon the condition of available budget

Final Ranking	ACRONYM	Full Title
8	NANOSTEM	Targeting Combined Therapy to Cancer Stem Cells
